

Good Afternoon,

Please share these updates with your staff to support their implementation of the Delta Math RtI Program.

1. **Summer School Online Access**
2. **Summer School Implementation Guide**
3. **Data Availability**

1. Summer School Online Access

- If you would like to use the Delta Math RtI Program online readiness screeners during the summer, please complete the form “Register for Summer School” on the [Contact Us](#) implementation support page.
- Implementation leaders need to communicate with Joe McKenzie their district’s plan for providing new enrollments, on or after June 15.
- The screening and reporting site will **not be accessible** after June 14 until new enrollments are provided to the OAISD.

2. Summer School Implementation Guide

- The [Summer Implementation Guide](#) for 2023 provides two options for using data to measure the impact from summer support. The guide also includes 3 planning guides with unique scope and sequences, and links to warm-ups, tier 3 intervention lessons, and Delta Math activities.
- Three different planning guides are available for you to use depending on the number of weeks, days per week, and minutes per day that you have planned for summer math support. The OAISD would like to thank Hudsonville Public Schools, West Ottawa Public Schools, and Zeeland Public Schools for granting permission to share the results from their collaborative efforts.
- It is important to understand that each planning guide provides links to Delta Math tier 3 intervention lessons so that students begin to build the math using manipulatives during session 1 since time is more limited during summer programming. This decision also simplifies implementation training for educators who are not familiar with the re-engagement session provided in the tier 2 lessons.

3. Data Availability

- Data collected before June 14, 2023 will be available in the “[Additional Reports](#)” linked near the bottom of the page at www.deltamath.org. Each district is assigned a common username and password to access student results going back to the 2019-20 school year.
- To request your district’s username and password, complete the form “Help Desk for Current Participants” on the [Contact Us](#) implementation support page.

To ask questions or request implementation support, please email me at mklavon@oaisd.org.

Have a great day!

Mike Klavon
Ottawa Area ISD
